

# OF 150

## 150 Watt Switchmode Power Supply

### Features:

- Input: widerange
- Constant voltage, current limited
- Continuously short circuit proof
- DC - Output: customized
- Efficiency  $\geq 88\%$
- Low leakage current  $\leq 100\mu\text{A}$
- For office and medical applications

### Specification:

#### Input Characteristics:

Voltage	90 ~ 264V AC
Frequency	50 to 60 Hz
Input current	1800 mA

#### Environmental Characteristics:

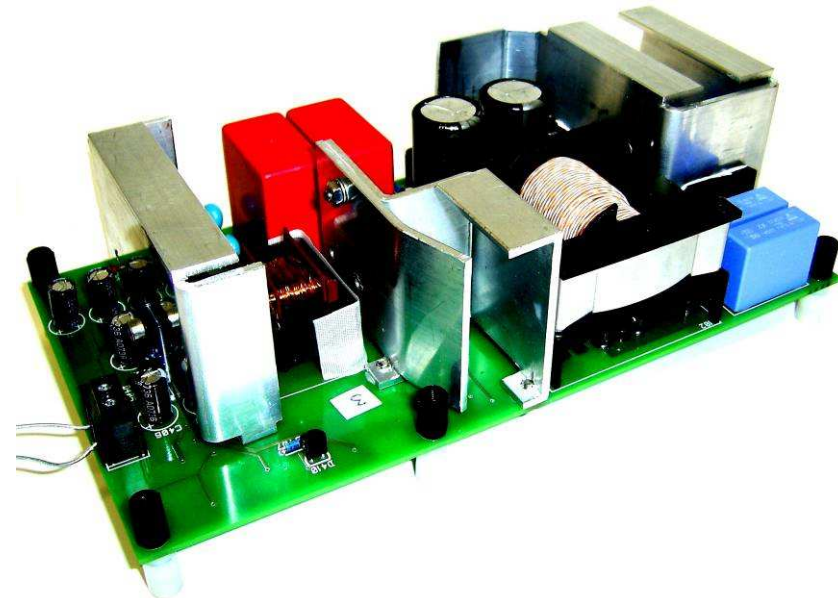

Operating temperature	0 to 50°C
Storage temperature	-10 to 70°C

#### Output Characteristics:

Over Voltage Protection	Yes
-------------------------	-----

#### Mechanical Characteristics:

Dimensions	185x100x55 (LxWxH)
------------	--------------------

#### Output Data

Voltage	Current	Ripple Voltage at max. Power
24 V	6250 mA	420 mV pp

- Concept for 150 Watt energy power class
- Adjusted customer design available
- Controlled component assembly
- Selected components
- Power factor 0.89
- Active PFC
