## **Sierra Wireless AirPrime MC8795V Intelligent Embedded Module**

### **Key features:**

- Peak downlink speeds up to 7.2 Mbps and peak uplink speeds up to 5.76 Mbps
- World class product performance, quality and reliability
- Extensive software, applications and tools, installation and activation wizards
- Solid support for device integration and verification
- Comprehensive SDK and enabling software

### **Key benefits:**

- High-speed, broadband connectivity
- Best-in-class technical and integration support
- Easy integration
- Premium functionality and performance
- Simplified certification and commercialization
- Compact size and light weight
- Antenna diversity for improved fringe performance
- Quad-band for global connectivity

<b>Air Interface</b>	EDGE, GPRS, GSM, HSDPA, HSUPA
<b>Frequency Bands</b>	1900 MHz, 2100 MHz, 850 MHz, 900 MHz
<b>Approvals</b>	FCC, IC, CE, GCF, PTCRB
<b>Standby and Idle Power</b>	4-5mA
<b>GSM GPRS Max Power</b>	2.6A
<b>HSxPA Max Power</b>	770mA
<b>Codec</b>	HR, FR, EFR, AMR
<b>Echo Cancellation and Noise Reduction</b>	Yes
<b>DTMF</b>	Yes
<b>UART</b>	1x 8-wire
<b>USB</b>	USB 2.0 high speed
<b>ADC</b>	1
<b>Flash LED Output</b>	1
<b>SIM Interface</b>	1.8V or 3V
<b>Antenna Diversity</b>	Yes
<b>Embedded SIM</b>	No
<b>Device Management</b>	No
<b>Drivers</b>	Windows 7, Windows 7 Mobile Broadband, Windows Vista, Windows Vista 64, Windows XP, Windows XP x64, Linux, Windows CE, Windows Mobile, Windows 2000
<b>Device Dimensions</b>	51x30x4.5mm
<b>Operational Temperature</b>	-25°C to +60°C
